Correspondent Message,

Dear Students and Parents

"I never dreamed about success. I worked for it." Hard work is an essential thing we all need in life. It is impossible to achieve greatness without working

hard. In other words, an idle person cannot gain anything if they wish to sit and wait for something else. Alagu Jothi Academy firmly believes that the Parents are a child's first teacher and mentor, and aid in the overall development of the children. We thank parents of AJA for trusting us. As parents, selecting a school for your child is one of the most significant decisions you will make. We are strongly committed to ensuring that every day, each and every student receives the extraordinary care that is the aim of our School. Dear Students and Parents

"A genuine leader is not a searcher for consensus but a molder of consensus." - Martin Luther King Jr. Let me take this

Vice Principal's Message,

Dear Students and Parents

As the Vice Principal of the school, I feel honoured and privileged to be part of an educational institution where every stakeholder is

a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents & staff. I believe in upholding high standards with an absolute commitment to strive to understand and improve the educational process, using team strategies, while wholly centering on student achievement. Our staff fruitfully employ two diverse strategies that are of Love and Logic to foster a positive learning environment for all our students. Love and Logic may seem like two contrasting forces, while love helps nurture trusting relationships where students feel respected, appreciated and loved by the teachers, logic helps to develop student's personal responsibility, self control, good decision making skills, self confidence and character building with high moral values.

Mrs. Viji. P. T

ACO Upper Primary, Dear Students and Parents

We are very fortunate to live and work in a very caring and supportive community. Every day, we visit classrooms to connect with students and teachers and to enjoy the excitement and learning taking place. When visiting, we see happy, respectful and resilient children, who are engaged in their learning. We continue to be impressed by the learning of our students and their developing abilities! We continue to be impressed by our staff, who work hard to provide valuable, creative and interesting learning experiences for our students. We are maintaining many of our approaches as well as adding to our repertoire of methods and strategies to teach both the social and emotional skills necessary to be cooperative and productive in the school setting.
